

A Book List for students of Hermeticism & Astrotheology for approaching the Achintya-Bheda-Abheda School of Sri Chaitanya.

There are many so-called avatars of the modern era, but none have been so elevated and hidden from western students of mysticism as Sri Chaitanya-Deva. The first rendering into any western tongue was in 1880 by the guardian of Chaitanya's secrets, Sri Bhaktivinoda Thakura, who sent books to leading western thinkers like Emerson and Reinhold Rost, in America & Europe. Even the likes of occultist Aleister Crowley came to know of Sri Caitanya a century before the advent of the world-wide Hare Krishna movement in 1966.

The teachings of Sri Chaitanya [1486-1534] combine and explain all previous 'Hindu' philosophies [viz. Brahman-ism, Vishnu-ism, Shiva-ism, Goddess-ism, Polytheism & Atheism] and by debate he showed his teachings were the essence of Islam, Buddhism & Sikhism. Modern Chaitanyite Syncretists, like Bhakti Ananda Goswami, scientifically prove that these teachings were at the heart of the Mystery Schools of Judea, Heliopolis, Babylon, Crete, Ancient England and China.

It is a sad fact of Western Occultism that in order to achieve full Syncretism, the most ancient and pure Bhakti revelation, hidden in the Vedic, Heliopolitan and Judeo-Christian texts of Radha-Krishna Bridal Mysticism, has been lost to an impersonal rendering. The New Age philosophies born of Hermetic Syncretism would generally agree to deny the supremacy of a personal relationship with the God of Gods and His Beloved. In the Western world, more than 99% of authors and translators of Eastern Vedanta & Western Mysticism are distorted by the impersonal concepts popularized by Shankaracharya, Theravadin Buddhism, Jainism and the Theosophists.

Therefore, as an introduction to the "Inconceivable One-and-Different" Bhakti doctrine of Sri Chaitanya, especially for Syncretists, I have compiled the following book list, their free download links where possible, and online Libraries & Forums connected to the Chaitanyite Bhakti tradition. Please note that these books are translations and studies of original texts by those experts who are living in the tradition of each books' Guru-Disciple lineage. No references are made to books by authors who study from outside the lineage of a culture, nor authors who claim to be channelers, alien abductees, Ascendant Masters, self-proclaimed avatars, or other such unreliable sources. Those authors who describe the syncretism of a forgotten world-wide Vedic federation back up their claims with recognized archeological, scientific, linguistic and historic evidence.

APPENDIX 1:

Identifying Syncretism of Similar Divine Names from Different Cultures

By Bhakti Ananda Goswami.

The sound, spelling or transliteration alone does not hold the key to whether similar words are linguistically related or 'cognate'. Thus I use interdisciplinary research to trace-out word relationships. For example the Name of God HARI in Sanskrit has multiple meanings. One is LION as in NARA-HARI 'Man-Lion', which is a Name of Nara-Simha the Man-Lion Form of Krishna or Vishnu. One of Nara-Hari's other Holy Names is HARYAH. This is His Name HARI meaning LION, with His Masculine 'Being Who IS' Purusha Name YA on the end. Thus HARI-YAHU / HARYEH or HARYAH (HRIH, SUREH, SURYA etc,) in Sanskrit means HARI is YAH (PURUSHA). Afro-Egyptian HERU-AUSU, Greek HELIOS, Roman SOLEUS, Biblical Hebrew ELI-YAHU and Aramaic ALLAH are all variations of this SAME HOLY NAME.

Now let's compare the Hebrew Name of the Lion of Judah, AREYAH. This Holy Name is actually a compound of the Two Hebrew Holy Names ARI and YAHU. In this Name, ARI like Sanskrit HARI actually means LION! And like the YA (YAH) on the end of Krishna's Holy Name HARYAH, the second Deity Name Element in ARI-YAHU is the Jewish Deity Name YAHU. YAHU is the (masculine) ONE WHO IS. Thus the MEANINGS of BOTH of the Holy Name elements in these two compound Names are identical. Sanskrit HARYAH and Hebrew AREYAH (ARI-YAHU) are cognates...linguistically related. I have also confirmed these linguistic connections many other ways. So this is what I recommend others to do. Always look for other evidence to invalidate or validate your suspected word-relationships. I looked for Icons of the Jewish Deity as the Lion of Judah, and I found Nara-Hari Kalah! Please see my FB Album of these related Icons of the Jewish and Vaishnava, Zoroastrian and earlier Persian, Afro-Egyptian, Greek, Roman, Shaivite and Pure Land Buddhist Supreme lord as LION HEADED TIME.

Similarly, when another meaning of the Name Hari is used, eg: HARI = Gold, we find other families of Names. For example

GAURA in Bengali meaning GOLD as in GAURANGA, GAURA-ANGA 'Golden Limbed' IS cognate with HARI when HARI means GOLD.

APPENDIX 3:

Some Basic Texts on Catholicism and Radha-Krishna-Baladeva Vaisnavism in History and Theology.

By Bhakti Ananda Goswami.

It is not possible to grasp the profound relationship between the Judeo-Christian Tradition and the Indic Vaishnavism of Sri Sri Radha-Krishna and Baladeva without approaching Christianity through Catholicism, and Catholicism's authentic Greek, Hebrew, Egyptian and other Jewish Sources. One such Source is in the **Greek Jewish Septuagint**, found in the Books of the Catholic Bible which describe an Era in the region, just before the advent of Christ. These Books from the ancient Greek Septuagint have been entirely left out of the Protestant King James Bible, and generally have not been included in Protestant Bibles. They are not spurious Gnostic so-called 'Gospels', and should be read to understand what Judaism WAS in that region, during the immediate centuries of Christ's Pre-Advent Era.

Furthermore, the entire Septuagint, or original ancient Greek version of the Jewish Scriptures, read in the original Greek, reveals the most astounding truth: IT IS CLEARLY A VAISHNAVA 'VEDIC' TEXT! If one was to create a Sanskrit Dictionary of Krishna-centric Sanskrit Scriptures, inscriptions and other writings from the same or previous eras, and compare the Indo-European cognate words, Deity Names etc. in the Greek Septuagint Books with those of the appropriate eras of the Sanskrit Language of the Krishna Tradition, it would be obvious that the Traditions were CLOSELY RELATED! Today we can even appreciate this if we take our prejudicial blinders off to comprehend that a Jewish synagein (synagogue) of tzaddics is a sangam of sadhakas (sadhu sanga). Actually synagein is the people, the sanga assembly itself, and only the place by association, and traditionally the Tzadik is a holy man (CHasidic).
